### SUMMARY

Self-motivated and detail-oriented web developer skilled in developing responsive websites, databases and user-friendly mobile apps. Adept at juggling multiple tasks, prioritizing effectively, and meeting deadlines in fast-paced environments. Organized and disciplined professional with a passion for problem-solving and a commitment to delivering high-quality results.

### WEB DEVELOPMENT PROJECTS

#### CINEDEX

Personal Project, CareerFoundry

May - June 2023

- Created REST API to interact with NoSQL movie database made using Mongo DB
- Tested API endpoints using Postman and deployed API using Heroku
- Created two single-paged responsive client-side applications, one using React/React Bootstrap and one using Angular/Material

#### MEET APP

Personal Project, CareerFoundry

June - August 2023

- Developed progressive web application using React to fetch and display events from Google Calendar API
- Used the test-driven development technique to test functionality of user stories using unit, integration and end-to end testing
- Utilized serverless functions through AWS Lambda for authorization server and OAuth for user authorization and authentication
